W.I.S.E. – SSE 50 China Tracker[®]

(Stock Code: 03024)

IMPORTANT NOTES:

- Investment involves risks and W.I.S.E. – SSE 50 China Tracker[®] (the "Sub-Fund") may not be suitable for everyone. Past performance is not indicative of future performance. The Sub-Fund is subject to market and exchange rate fluctuations and to the risks inherent in all investments. Price of Units and the income (if any) generated from the Sub-Fund may go down as well as up. Investors could face no returns and/or suffer significant loss related to the investments. There is no guarantee in respect of repayment of principal.
- The key risks to which the Sub-Fund is subject to include: general investment risk, the People's Republic of China ("PRC") market/emerging market risk/single country concentration risk, passive investment risk, tracking error risk, trading risks, trading differences risks, risks associated with the Shanghai-Hong Kong Stock Connect, equity market risk, foreign exchange and RMB currency and conversion risks, legal and regulatory risk, PRC tax risk, termination risk, reliance on market maker risks and risk in relation to distribution.
- The Sub-Fund invests in an emerging market, such as the PRC, which may involve increased risks and special considerations not typically associated with investment in more developed markets.
- The relevant rules and regulations on Shanghai-Hong Kong Stock Connect are subject to change which may have potential retrospective effect. Shanghai-Hong Kong Stock Connect is subject to a set of Daily Quota, which does not belong to the Sub-Fund and can only be utilized on a first-come-first serve basis. Where a suspension in the trading through the programme is effected, the Sub-Fund's ability to invest in A Shares or access the PRC market through the programme will be adversely affected. In such event, the Sub-Fund's ability to achieve its investment objective could be negatively affected.
- Based on professional and independent tax advice, the Sub-Fund currently will not make the following tax provision (i.e. 10% withholding income tax provision on realised and/or unrealised capital gains from trading of A Shares by the Sub-Fund via Shanghai-Hong Kong Stock Connect). There are risks and uncertainties associated with the current PRC tax laws, regulations and practice in respect of capital gains realised via Shanghai-Hong Kong Stock Connect on the Sub-Fund's investments in the PRC. Any future changes in the taxation policies will impact on the Sub-Fund's returns.
- The Manager will normally make distributions out of net income received or receivable by the Sub-Fund. However, in the event that the net income is insufficient to pay the distributions that it declares, the Manager may also, in its absolute discretion, determine that distributions be paid out of the capital, or the Manager may, in its discretion, pay distributions out of its gross income while charging/paying all or part of its fees and expenses to/out of the capital, resulting in an increase in distributable income for the payment of distributions by the Sub-Fund and therefore, the Sub-Fund may effectively pay distributions out of capital. This may reduce the capital that the Sub-Fund has available for investment in future and may constrain capital growth.
- Investors should be aware that in circumstances where distributions are paid out of capital or effectively out of capital, this amounts to a return or withdrawal of part of the amount investors originally invested or from any capital gains attributable to that original investment. Any distributions involving payment of distributions out of capital or payment of distributions effectively out of capital (as the case may be) may result in an immediate decrease in the Net Asset Value per Unit.
- Please refer to the offering document of the Sub-Fund for further details including investment objectives and policies, charges and expenses, risk factors and the arrangement in the event that the Sub-Fund is dissolved, before making any investment decision.

Investment Objectives and Policies

The Sub-Fund is an index-tracking exchange traded fund which seeks to provide investment performance (before taxes) that tracks the performance of the SSE 50 Index (the "Underlying Index"). In order to achieve the investment objective of the Sub-Fund, the Manager will adopt a representative sampling strategy for the Sub-Fund. The Sub-Fund, at present, invests directly in A Shares via the Shanghai-Hong Kong Stock Connect.

IMPORTANT INFORMATION: Investors should note that the Sub-Fund is different from a typical retail investment fund offered to the public in Hong Kong, in particular:

- A Participating Dealer may only create or redeem Units in Application Unit Size+ (as defined in the Prospectus) directly with the Sub-Fund;
- There is risk related to divergence between the market price of the Units and the NAV of the Sub-Fund. The market price of the Units traded on the SEHK is determined not only by the NAV of the Sub-Fund but also by other factors such as the supply of and demand for the Units in the SEHK;
- The Units may trade at a substantial premium or discount to the Sub-Fund's NAV.

♦ The Sub-Fund is regarded as an "Eligible Collective Investment Scheme" under the new Capital Investment Entrant Scheme (the "New CIES") launched by the Government of Hong Kong Special Administrative Region on 1 March 2024. For further details of the New CIES, please visit the relevant website at www.newcies.gov.hk.
